Judy Bartlett

Director / Registered Nurse (Masters Nsg. Clin. Leadership)

## OVERVIEW

The Aim of this course is to provide the overall confidence for care workers to safely care for a client with Pressure injuries, sores or of high risk in receiving them. We will look at how to provide the highest care to clients at risk of Pressure areas, their basic treatment, promotion of skin care and regeneration and ultimately their prevention.

## CONTENT

This workshop covers the following:

- Anatomy and Physiology of the skin and underlying causes of Pressure areas
- Common Factors and Diseases that contribute to the pressure areas – Risk assessments
- Nutrition and Hydration
- Preventing complications and promoting healing
- Infection Control and personal care
- PPE
- Maintaining a Healthy skin and hydration
- Documentation
- Basic wound dressing techniques and referral agencies

\*Workshops can be contextualised to suit your individual organisational needs

## WORKSHOP DELIVERY

This workshop is delivered in the classroom over 2 hour duration.

## COMPLETION

Upon successful completion of the workshop, participants will be able to confidently demonstrate knowledge of subject matter and will receive a Statement of Attendance for Professional Development within 10 business days.

## VALIDITY / REFRESHERS

Rapid Response First recommends refreshing your knowledge and skills annually.
